

CASE STUDY

Project: Newsfax International, printing works at Stratford (2) and Dagenham sites.

Project value: £1.5 Million in total.

Client: Newsfax International.

Main Contractor: Various.

Dates: Nov 01 - May 07

Background:

Newsfax International provide printing facilities for the major media publishers, such as the FT and The Guardian newspaper.

Giffen Switchgear for the first of three sites provided it's experience, product and services on this important project to such a degree of satisfaction, that the client had no reservations in choosing Giffen Switchgear again for it's next two sites.

Project management and supply co-ordination provided by Giffen Switchgear with the other service contractors on site, meant that the whole project was completed on time for the running of the presses.

Scope of work:

- Design, manufacture, supply, installation, test and commissioning of HV switchgear, cast resin transformers, LV busway trunking, LV switchboards and associated panels.
